3.0	March 2016	QSE Manager	Update for annual test
3.1	March 2017	QSE Manager	Update for annual test

1.0 OVERVIEW

This Pollution Incident Response Management Plan (PIRMP) has been developed in accordance with the requirements of the Protection of the Environment Operations (General) Amendment (Pollution Incident Response Management Plans) Regulation 2012. Under this regulation all holders of environment protection licences must prepare a PIRMP.

The objectives of the plan are to ensure comprehensive and timely communication about a pollution incident to all relevant parties, minimise and control the risk of a pollution incident occurring and ensure correct implementation by staff.

As per regulations a copy of the full PIRMP is available on the activity site and to all persons responsible for the implementation of the plan. A public version of the plan outlining procedures for contacting relevant authorities and community notification guidelines is accessible via the company website.

The plan is routinely tested every 12 months to ensure relevance, accuracy and compliance with applicable legislation and standards. A review of the plan will be undertaken within 1 month of a pollution incident occurring to ensure the plan is capable of being implemented in a workable and effective manner.

This plan forms part of the Site Environment Management Plan which makes up part of the Solo Integrated Management System. Environmental incident reporting processes are designed to ensure that all relevant team members are trained in the correct reporting protocol and under what circumstances.

2.0 DEFINITIONS

Pollution Incident - means an incident or set of circumstances during or as a consequence of which there is a likely to be a leak, spill or other escape or deposit of a substance, as a result of which pollution has occurred, is occurring or is likely to occur. It includes an incident or set of circumstances in which a substance has been placed or disposed of on a premise, but it does not include an incident of circumstances involving the emission of any noise

Material Environmental Harm – means harm to the environment is material, if:

- (i) It involves actual or potential harm to the health or safety of human beings or to ecosystems that is not trivial; or
- (ii) It results in actual or potential loss or property damage of an amount, or amounts in aggregate, exceeding \$10,000.00 (or such other amount as is prescribed by the regulations), and

Serious Environmental Harm – means harm to the environment if it involves:

- (i) Actual or potential harm to the health or safety of human beings that is of a high impact or on a wide scale, or other actual or potential environmental harm (not being merely an environmental nuisance) that is of a high impact or on a wide scale; or
- (ii) It results in actual or potential loss or property damage of an amount, or amounts in aggregate, exceeding \$50,000.00.

Receiving Environment – means:

- (i) Where an activity that causes or may cause environmental harm, means the part of the environment or the location where the incident occurs.

3.0 SCOPE

This PIRMP has been prepared for the below site.

Section 55 Protection of the Environment Operations Act 1997

Environment Protection Licence

Licence - 20427

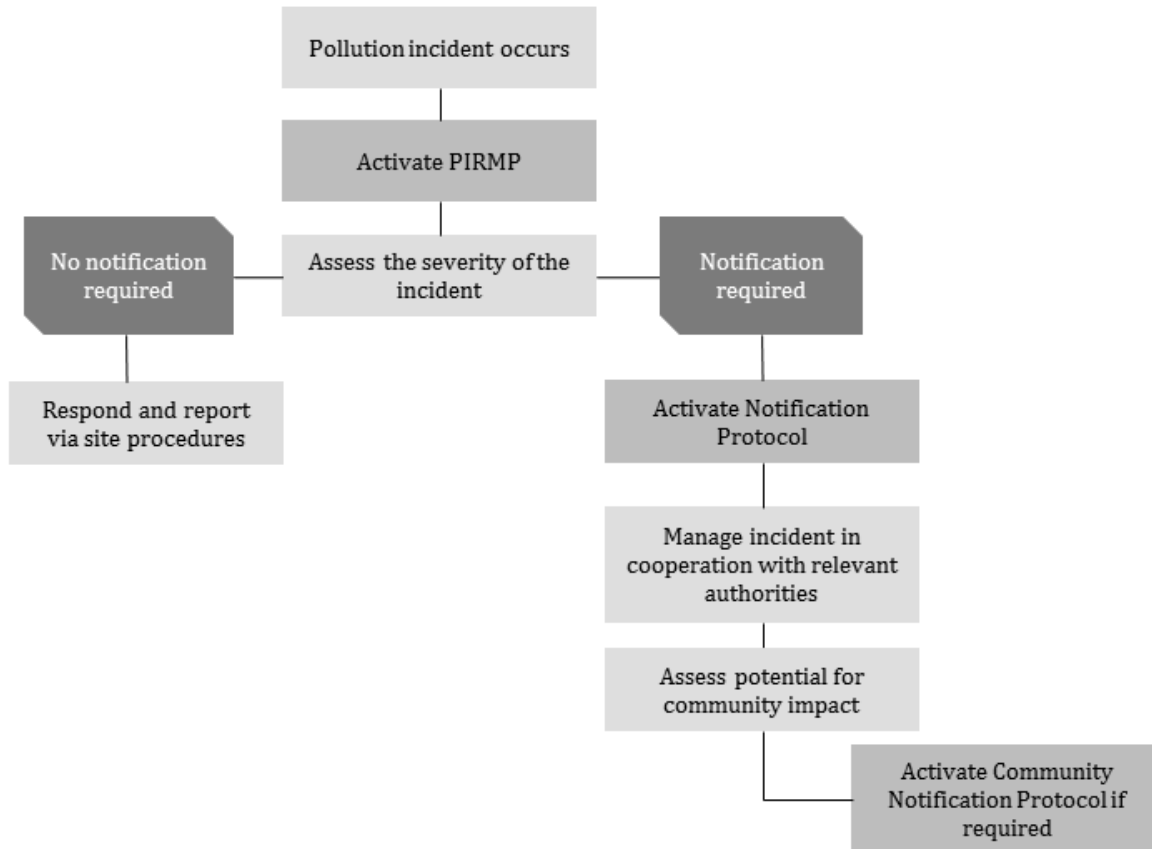

Licence Details		
Number:	20427	
Anniversary Date:	31-October	
Licensee		
SOLO WASTE PTY LTD		
PO BOX 1427		
KINGSCLIFF NSW 2487		
Premises		
SOLO RESOURCE RECOVERY		
27 OAKDALE ROAD		
GATESHEAD NSW 2290		
Scheduled Activity		
Resource Recovery		
Waste Storage		
Fee Based Activity		Scale
Recovery of general waste		> 0 T recovered
Waste storage - other types of waste		> 0 T stored

The Gateshead Site is comprised of the following:

- Administration Office
- Drivers Lunch Room
- Yard Area including Fuel storage and Washbay
- MGB Storage
- Weighbridge
- Transfer Station

- Mechanical Workshop
- Materials Recovery Facility (MRF)
- Staff Car Park and Visitors Car Park

4.0 INCIDENT RESPONSE PROCEDURE OVERVIEW

5.0 INCIDENT RESPONSE

Should an environmental incident occur where harm to the environment has, or is likely to occur the following steps are to be taken:

- Assess severity of incident;
- If appropriate take steps to prevent further discharge, isolate and contain spill using available equipment and PPE;
- Minor incidents not requiring notification will be attended under spill procedure *IMS-AIIR-D-0010 – Spills – Oil or Other Substances Procedure*
- If required enact Notification Protocols, advise relevant authorities of the incident and what steps are being taken (record details of time of call and who was told);
- Record the date, time and location of the incident;
- Record what chemical or pollutant is involved (if known) and estimated quantity;
- Record details of the receiving environment;
- Record any injuries to team members or members of the public as a result of the incident;
- Do not leave the incident location until advised by supervisor / state agency official.

6.0 NOTIFICATION PROTOCOLS

External:

Agency	Contact
Fire and Rescue NSW	000* (*if the incident presents an immediate threat to human health or property) 1300 729 579
EPA Environment Line	131 555
Ministry of Health via the local Public Health Unit	1300 066 055
WorkCover Authority	13 10 50

Hunter Water Corporation	1300 657 000

Internal:

Position	Contact
Solo Contracts Manager	xxxx xxx xxx
Solo Operations Supervisor	xxxx xxx xxx
MRF Site Supervisor	xxxx xxx xxx
JR Richards Supervisor	xxxx xxx xxx
Solo Compliance Team	xx xxxx xxxx

7.0 COMMUNITY NOTIFICATION STRATEGY

Decisions to notify neighbours and the local community will be made in consultation with regulatory authorities based on an initial assessment of the pollution incident.

Advice provided to the community will depend on the type and extent of the pollution incident and guidance from the regulatory authorities.

Notifications may include (as an example) advice to close doors and windows to avoid odour etc. The appropriate method for communication will be determined by the nature of the event or as directed by the relevant agency. Methods may include door knocking by company representative (or emergency personnel), telephone contact or written correspondence.

Affected community stakeholders will be regularly updated throughout the course of the pollution incident.
